

1 International Mail Services

110 General Information

111 Scope

This manual sets forth the conditions and procedures for the preparation and treatment of mail sent from the United States to other countries and the treatment of mail received from other countries. Its counterpart in the domestic mail service is the *Domestic Mail Manual* (DMM). Cross-references to the DMM are provided wherever domestic conditions and procedures apply to the preparation or treatment of international mail.

112 Mailer Responsibility

Regardless of any statement contained in this manual or the statements of any employee of the United States Postal Service, the burden rests with the mailer to ensure that he or she has complied with the prescribed laws and regulations governing domestic and international mail, both those of the United States and those of the destination country.

113 Individual Country Listings (ICLs)

Individual Country Listings provide information about conditions of mailing, postage rates, and special services for each country. ICLs are arranged alphabetically. Most subtitles are followed by a chapter citation in parentheses.

120 Preparation for Mailing

121 Packaging — Sender's Responsibility

It is the responsibility of the sender to prepare items and to address them clearly and correctly. In preparing items for mailing, the sender must (1) use strong envelopes or durable packaging material, and (2) consider the nature of the articles being mailed and the distance they must travel to reach the addressee. (See DMM C010.2.0 for detailed instructions.)

122 Addressing

122.1 Destination Address

- a. At least the entire right half of the address side of the envelope, package, or card should be reserved for the destination address, postage, labels, and postal notations.
- b. Addresses must be printed in ink or typewritten. Pencil is unacceptable.
- c. The name and address of addressee must be written legibly with Roman letters and Arabic numbers, all placed lengthwise on one side of the item. For parcels, addresses should also be written on a separate slip enclosed in the parcel.
- d. Addresses in Russian, Greek, Arabic, Hebrew, Cyrillic, Japanese, or Chinese characters must bear an interline translation in English of the names of the post office and country of destination. If the English translation is not known, the foreign language words must be spelled in Roman characters (print or script). See 246.91 and 284.1 for an *optional* addressing procedure that applies only to direct country sacks of International Surface Airlift (ISAL) mail or International Priority Airmail (IPA), respectively.
- e. Mail may *not* be addressed to a person in one country “in care of” a person in another country.
- f. The name of the sender and/or addressee may *not* be in initials except where they are an adopted trade name.
- g. Mail may *not* be addressed to *Boxholder* or *Householder*.
- h. The following exceptional form of address, in French or a language known in the country of destination, may be used on printed matter: the addressee's name or *Occupant*.
Example: MR THOMAS CLARK OR OCCUPANT
- i. The house number and street address or box number must be included when mail is addressed to towns or cities.
- j. The address of items sent to General Delivery (in French, *Poste Restante*) must indicate the name of the addressee. The use of initials; figures; simple, given names; or fictitious names is not permitted on articles addressed for general delivery.

- k. The bottom line of the address must show only the country name, written in full (no abbreviations) and in capital letters. For example:

MR THOMAS CLARK	MS C P APPLE
117 RUSSELL DRIVE	APARTADO 3068
LONDON WIP 6HQ	46807 PUERTO VALLARTA JALISCO
ENGLAND	MEXICO

Exception: To Canada, either of the following address formats may be used when the postal delivery zone number is included in the address:

MS HELEN SAUNDERS	MS HELEN SAUNDERS
1010 CLEAR STREET	1010 CLEAR STREET
OTTAWA ON K1A 0B1	OTTAWA ON CANADA
CANADA	K1A 0B1

122.2 Return Address

The complete address of the sender, including ZIP Code and country of origin, should be shown in the upper left corner of the address side of the envelope, package, or card. Only one return address may be used. It must be located so that it does not affect either the clarity of the address of destination or the application of service labels and notations (postmarks, etc.).

Unregistered items bearing a return address in another country are accepted only at the sender's risk. In the case of bulk mailings, the return address must be in the country of mailing. For the purpose of this section, a bulk mailing is 200 or more pieces mailed at the same time by the sender.

123 Customs Forms

123.1 General

Only two customs declaration forms are used, as required under 123.6, for international mail: PS Form 2976, *Customs - CN 22 (Old C 1) and Sender's Declaration* (green label); and PS Form 2976-A, *Customs Declaration and Dispatch Note CP 72 (Old C 2/CP 3/CP 2)*. PS Form 2976-E, *Customs Declaration Envelope CP 91*, is used with PS Form 2976-A for parcel post packages.

Note: The May 1996 and December 1996 versions of PS Form 2976 may no longer be used. Postal customers are now required to use the June 1997 version, or a subsequent one, whenever a mailing transaction necessitates the affixing of PS Form 2976. Except as provided in 123.3, it is also mandatory that they present a fully completed *Sender's Declaration*, which specifies both the Sender's Name and Address and the Addressee's Name and Address, at the time of mailing.

123.2 Availability

Customs declaration forms are available without charge at post offices. Upon request, mailers may receive a reasonable supply for mail preparation.

123.3 Privately Printed Forms

If authorized, mailers may privately print PS Forms 2976 and 2976-A. Privately printed forms must be identical in size, design, and color to the Postal Service forms, and each form must contain a unique code 128 barcode number that can be read by Postal Service equipment. Form specifications may be obtained from:

MANAGER PRICING COSTING AND CLASSIFICATION
INTERNATIONAL BUSINESS
US POSTAL SERVICE
475 L'ENFANT PLZ SW 370 IBU
WASHINGTON DC 20260-6500

For authorization, mailers must submit at least two preproduction samples to the Manager, International Pricing, Costing and Classification, at the above address, for review and approval. If three or more items are presented at one time, the mailer may omit printing the post office copy of PS Forms 2976 and 2976-A if a manifest of the items is provided. The manifest must contain the same mailer's certification statement and edition date printed on the Postal Service forms. Entries on the manifest must be typewritten or printed in ink or by ballpoint pen. The manifest must contain the sender's name and address; the sender's print authorization (i.e., bar code) number; the edition date of the privately printed PS Form 2976, *Customs - CN 22* that is being affixed to the mailpieces; a signed and dated reproduction of the certification statement that is printed on the USPS *Sender's Declaration*; and a list of the foreign recipients' names and delivery addresses.

123.4 Nonpostal Forms

Certain items must bear one or more of the forms required by the nonpostal export regulations described in Chapter 5.

123.5 Place of Mailing

Except as specified below, postal items that require a completed customs declaration form may *not* be deposited into a street collection box or a post office lobby drop. Such items must be tendered to a USPS employee at a post office or other location as designated by the postmaster. Otherwise, they will be returned to the sender for proper entry and acceptance.

Exception: The above restriction on the deposit of customs mail does not apply to Express Mail International Service (EMS) shipments that are paid for through an Express Mail Corporate Account. Those items may be deposited into a designated Express Mail collection box or post office lobby drop.

123.6 Required Usage

123.61 Conditions

Customs declaration PS Forms 2976 or 2976-A and 2976-E must be used as shown in [Exhibit 123.61](#).

If the value of the contents is \$400 and over, the upper left section of PS Form 2976 (green label) should be attached to the outside of the item, and a separate PS Form 2976-A must be completed and enclosed inside the package.*

Notes:

1. *International Parcel Consignment Service (IPCS) requires customs forms as specified by the USPS for that program.*
2. *The customs form requirements for Global Priority Mail (GPM) are the same as those for letters and letter packages. Therefore, customers who send nondutiable GPM items weighing 16 ounces or more, which bear a permit imprint, are eligible for the known mailer exemption that is referenced in the "Comment" column above. See 226.63 for GPM customs form requirements.*
3. *Bulk business products including International Surface Air Lift (ISAL), International Priority Airmail (IPA), and VALUEPOST™/CANADA, require customs forms based on package contents and weight as specified above and as required by the country of destination.*
4. *Express Mail International Service (EMS) shipments that contain correspondence, documents, or commercial papers are subject to the following customs form requirements:*
 - a. *When an EMS shipment with those categories of contents weighs less than 16 ounces, the determination as to whether or not to affix PS Form 2976 is dependent upon the conditions of mailing that are applicable to a particular destination country. Some countries require that a customs form be affixed to EMS shipments in that situation. Others only require that a "BUSINESS PAPERS" endorsement be placed on the wrapper of such shipments. See the Individual Country Listings for each country's specification in that area.*
 - b. *When the EMS shipment with those categories of contents weighs 16 ounces or more, PS Form 2976 is required.*

123.62 Known Mailers

A known mailer is:

- a. Anyone who legally applies a permit imprint to a mailpiece such as International Surface Air Lift (ISAL) or Global Package Link (GPL).
- b. A federal, state, or local government agency that sends Official Mail.
- c. Military contractors who send prepaid mail, provided the mail is endorsed “Contents for Official Use — Exempt from Customs Requirements.”

Note: For aviation security purposes a known mailer may be exempt from providing customs declaration forms (as required in 123.61), on items weighing 16 ounces or over, unless required by the destination country. A known mailer must complete the declaration on the postage statement, certifying that all items in the mailing contain no dangerous material that is prohibited by postal regulations. Known mailers and other mailers must complete the necessary customs form when sending dutiable items or merchandise. International mail with meter postage is not considered from a known mailer.

123.63 Additional Security Controls

When the chief postal inspector determines that a unique, credible threat exists, the Postal Service may require a mailer to provide photo-identification at the time of mailing. The signature on the identification must match the signature on the customs declaration form.

123.711 Preparation by Sender

A sender completes PS Form 2976, *Customs - CN 22 (Old C 1) and Sender's Declaration* (green label) by:

- a. Providing a complete description of each article in the item, even if it contains commercial samples, documents, gifts, or merchandise. General descriptions such as "food," "medicine," "gifts," or "clothing" are not acceptable. The description must be in English, although an interline translation in another language is permitted.
- b. Stating the exact quantity of each article in the item.
- c. Declaring the value, in U.S. dollars, of each article in the item. The sender may declare that the contents have no value (declaring no value does not exempt the item from customs examination or charges in the destination country).
- d. Showing the total weight of the item, if known.
- e. Indicating in the appropriate check box on the form whether the item contains gifts, merchandise, or commercial samples. If not, the sender does not check these boxes.
- f. Entering the sender's full name and address and the addressee's full name and address in the blocks indicated.
- g. Signing and dating the form in the blocks indicated on both parts of the form. The sender's signature certifies that all entries are correct and that the item contains no dangerous material prohibited by postal regulations.
- h. Affixing the form to the address side of the item and presenting it for mailing.

123.712 Acceptance by Postal Employee (PS Form 2976)

The Postal Service acceptance employee must:

- a. Instruct the sender how to complete, legibly and accurately, the customs declaration form, as required. Failure to complete the form properly can delay delivery of the item or inconvenience the sender and addressee. Moreover, a false, misleading, or incomplete declaration can result in either the seizure or return of the item and/or in criminal or civil penalties. The United States Postal Service assumes no responsibility for the accuracy of information that the sender enters on the PS Form 2976.
- b. Verify that the required information is entered on the form and that the sender has signed both parts of the form (the part affixed to the item and the part separated for postal records).
- c. Enter the weight of the item on the form, if not already done.
- d. Remove the post office copy of PS Form 2976 and advise the customer that a copy of the declaration will be retained as a record of mailing for 30 days.
- e. Round stamp any uncanceled stamps and if postage is paid by meter, round stamp the front of the piece near the meter postage.

Note: To comply with international mail aviation security procedures, any items weighing 16 ounces or over which are not accepted by an authorized employee, or where acceptance conditions are uncertain (e.g., if received through a collection box or left on an unattended dock) must be endorsed properly with “customer notification DDD-2 Sticker” and “Surface only” and returned to the sender by surface transportation. Consult the International Aviation Security Procedures dated January 3, 2000, for comprehensive acceptance procedures.

Instructions

- Complete this form in English. In addition, you may add a translation of the contents in your native language to facilitate Customs treatment in the destination country.
- Use a ball point pen to complete the form and describe the contents fully and accurately, otherwise the item may be delayed, returned or seized by Customs.
- Check the appropriate block on the form to indicate disposal instructions. If you request the return of the item, you will be asked to pay return postage and any other charges assessed by the foreign postal authorities on any parcel sent back to you. Check *Abandon* if you are not willing to pay the return postage.
- After completion, sign the sender's declaration and enter the date. Your signature is regarded as a guarantee that the particulars given are correct and that the package does not contain any dangerous substance or article prohibited by postal regulation.
- Hand the form set to the postal employee. The postal employee will postmark Copy 3, *Dispatch Note*, in the appropriate block, remove the Post Office copy and return the other forms to you. If the package is to be insured, state the insured amount to the postal employee. The postal employee will complete the appropriate insurance sections.
- Insert the form set into the envelope (Form 2976-E). If appropriate, insert any commercial invoice or extended list of contents into the envelope.
- Remove the backing sheet and affix the envelope to the package on the address side.

Note: It is the sender's responsibility to inquire and comply with the prescribed laws governing domestic and international mail and to find out what documents (invoices, certificate of origin, health certificates, etc.), if any, are required in the country of destination.

123.721 Preparation by Sender

A sender completes PS Form 2976-A, *Customs Declaration and Dispatch Note CP 72* (Old C 2/CP 3/CP 2), by:

- a. Providing the names and addresses of the sender and addressee.
- b. Providing information about the contents of the parcel or item. (If there is insufficient space on the customs declaration form to list all contents of the parcel or item, a second form is used to continue listing the contents. The first form must be annotated to indicate two forms. Both forms are placed into PS Form 2976-E (envelope). The sender lists this information by:
 - (1) Providing a complete description of each article in the parcel or item, even if it contains commercial samples, documents, gifts, or merchandise. General descriptions such as “food,” “medicine,” “gifts,” or “clothing” are not acceptable. The description must be in English, although an interline translation in another language is permitted.
 - (2) Showing the exact quantity of each article in the parcel or item.
 - (3) Declaring the value, in U.S. dollars, of each article in the parcel or item. The sender may declare that the contents have no value (declaring no value does not exempt the parcel or item from customs examination or charges in the destination country).
 - (4) Showing the net weight of each article in the parcel or item.
- c. Indicating in the appropriate check box on the form whether the parcel or item contains commercial samples, documents, gifts, or merchandise. If not, the sender does not check these boxes.
- d. For parcel post only, providing disposal instructions in the event that a parcel cannot be delivered. The sender checks the appropriate box on the form to indicate whether the parcel is to be returned, treated as abandoned, or forwarded to an alternate address. (Undeliverable parcels returned to the sender are subject to collection on delivery of return postage and any other charge assessed by the foreign postal authorities. The sender must check the box “Abandon” for any parcel for which the sender is unwilling to pay return postage.)
- e. Signing and dating the form in the block indicated. The sender’s signature certifies that all entries are correct and that the parcel or item contains no dangerous material prohibited by postal regulations.
- f. Presenting the parcel post package or item for mailing at a post office and affixing PS Form 2976-A according to the class of mail, as follows:
 - (1) For parcel post, the sender must not place PS Form 2976-A inside PS Form 2976-E (envelope) before the postal acceptance employee completes the required information described in 123.722. After the postal employee completes PS Form 2976-A, the sender places the form inside PS Form 2976-E and affixes it to the outside of the parcel.
 - (2) For an item other than parcel post (that is, an LC or AO item) valued at \$400 or more, the sender places PS Form 2976-A

inside the item before the postal employee accepts the item. If the sender does not want to show on the outside wrapper the contents of the LC or AO item, the sender affixes the upper left part of PS Form 2976, to the wrapper and completes PS Form 2976-A and encloses it in the item.

123.722 **Acceptance by Postal Employee (PS Form 2976-A)**

The Postal Service acceptance employee must:

- a. Instruct the sender how to complete, legibly and accurately, PS Form 2976-A, *Customs Declaration and Dispatch Note*, as required. Failure to complete the form properly can delay delivery of the item or inconvenience the customer. Moreover, a false, misleading, or incomplete declaration can result in either the seizure or return of the item and/or in criminal or civil penalties. The United States Postal Service assumes no responsibility for the accuracy of information that the sender enters on the form.
- b. Verify that the required information is entered on the form and that the sender has signed both parts of the form (the part affixed to the item and the part separated for postal records). The sender's address on the mailpiece must match the sender's address on the customs declaration.
- c. Complete an insurance receipt and affix the insured number label to the package, if the contents are to be insured. The postal employee enters on the form the insured number and the insured amount in U.S. dollars and SDRs.
- d. Weigh the parcel and enter on the form the gross weight and the amount of postage.
- e. Postmark the third copy of the form in the appropriate place.
- f. Remove the post office copy of the form and advise customer that a copy of the declaration will be retained as a record of mailing for 30 days.
- g. Round stamp any uncancelled stamps and if postage is paid by meter, round stamp the front of the piece near the meter postage.

Note: To comply with international mail aviation security procedures, any items weighing 16 ounces or over which are not accepted by an authorized employee, or where acceptance conditions are uncertain (e.g., if received through a collection box or left on an unattended dock) must be endorsed properly with "customer notification DDD-2 Sticker" and "Surface only" and returned to the sender by surface transportation. Consult the International Aviation Security Procedures dated May 1998 for comprehensive acceptance procedures.

131.3 Individual Country Prohibitions and Restrictions

131.31 Information Available

Information on articles that are prohibited or restricted to individual countries appears under “Prohibitions and Restrictions” in the Individual Country Listings. These prohibitions and restrictions are based on information furnished by the countries concerned. Customers should inquire at the post office about specific prohibitions or restrictions.

131.32 Prohibited and Restricted Articles

Articles that are prohibited by the destination country are nonmailable. For mail known to contain articles restricted by the destination country, the sender must be informed of the restrictions and advised that the articles are subject to the import requirements of that country.

Postal employees must not attempt to inform customers whether articles (gifts or commercial shipments) will be subject to customs duty. Postal employees may suggest to customers, however, that they inform the addressees in advance of the articles they intend to mail. Addressees can then obtain information from their local customs authorities. No provision is made for prepayment of customs duty on mail addressed for delivery in foreign countries.

131.4 Mailer Responsibility
